PROFILE

I am a MERN stack developer with a strong proficiency in React.js. I have experience building complex user interfaces and making sure that the code is optimized for performance and scalability. I also have experience with state management libraries like Redux and React-Router. I am confident that I would be a valuable asset to any team and am committed to working hard and learning as much as possible.

You can explore my portfolio by visiting the URL : https://portfolio-mustafa-zuberi.netlify.app/ , where you will find links to my GitHub, LinkedIn, and other relevant information.

WORK EXPERIENCE

MERN Stack Intern

Spandev Solutions (1 Month))   2023- March to 2023-April

React.js Developer

Smash Code (3 Months)   2023- March to Present

PROJECTS

Foodpanda Clone

This is web-app on React.js ,As a user, you can order food from any restaurant and view your order status in the cart. To place an order, your current location must be accessible. As a restaurant, you can update your restaurant info and add/edit/delete items. You can also view available orders in the cart and accept/reject orders.
Website URL :_ https://foodpanda-clone-mrzuberi.netlify.app/

DARAZ Clone

Utilizing the latest technologies such as MongoDB, React.js, Express.js, and Node.js, this platform provides an intuitive and user-friendly interface that simplifies the process of setting up an online store, creating product listings, and managing orders. With Daraz Clone, users can easily create their own virtual store and start selling products in no time.
